

CROWN OAKS  
HOMEOWNERS ASSOCIATION

## Important Notice

**This flyer is going to every home on Crown Crest Court 2/8/17**

Crown Oaks continues to have a problem with cats roaming the neighborhood. I do not know how many are feral and how many are pets; but if they are pets, they should not be allowed to roam freely outside. That is the City of Raleigh law and Crown Oaks rule as well.

Complaints continue to come in about the cats and we need your assistance to get it under control before Spring. The best case would be to catch them and have them spayed or neutered and then rehomed, however those good intentions, if not fulfilled can lead to litter after litter of kittens.

At this point we need to capture the ones living on Crown Oaks property and turn them over to Wake County or Raleigh Animal Control. That is where I need the help. We can arrange to have a trap placed near your home but need a commitment of someone to check it twice a day to see if an animal is in the cage. If an animal is caught, then we will get animal control to pick it up or we will take it to them.

If you hate that idea, PLEASE – trap the cats yourself and take them to get altered and re-homed. No one wants to have to do this.

If you can help, please call or text me 919-412-6747, or email me [mhardin@lemmontreenc.com](mailto:mhardin@lemmontreenc.com).

*Mary*

**Please do not put any food outside for the cats or other animals and let me know if you observe someone doing so.**

If you can share ideas of where you see cats and or what they look like, that would be helpful as well.

Needless to say – Dogs must always be leashed and poop cleaned up immediately!! If bags are low at the doggie stations, let us know!
